KEY INFORMATIONS ON FP

- Since 2007 we have no stock out in Burundi for the main FP products (injectable, IUDs, Pills...) at the Health Center level
- We are introducing implant (jabelle) at the health center level since 2009
- Every year we celebrate the week dedicated to RH
- Burundi main partners in FP are : KFW and UNFPA

CPR trend in Burundi

IUDs use trend in Burundi

The way forward

- We will give a feedback to parliamentarians in Burundi about the commitment of others members of parliament in the region,
- In parternership with media we will keep sensitizing the population, social and religious leaders on the FP issues,
- We will lead the development of curricula in secondary school on FP Questions for students.
