London Summit on FP Commitments: Family Planning is a collective Responsibility
London FP Summit Commitments

• Ensure universal access to Family Planning Methods by Availing FP services in each of the country’s 14,841 administrative villages to be delivered by 45,000 CHWs;

• Expanding existing information programs about FP to the general public;

• Increase awareness of the various choices available;

• For convenience and in order to reduce frequency of visits to health providers, we plan to introduce long lasting contraceptive methods, including permanent ones;

• Availing high quality integrated family planning services in every hospital and health centre.
