

COUNTRY EXPERIENCE

**By Charles Oisebe 21st – 22nd March 2017.
EARHN Country Coordinator(Kenya)
National Council for Population and Development (NCPD)**

PRESENTATION OUTLINE

1. Indicators for Kenya

2. Achievements

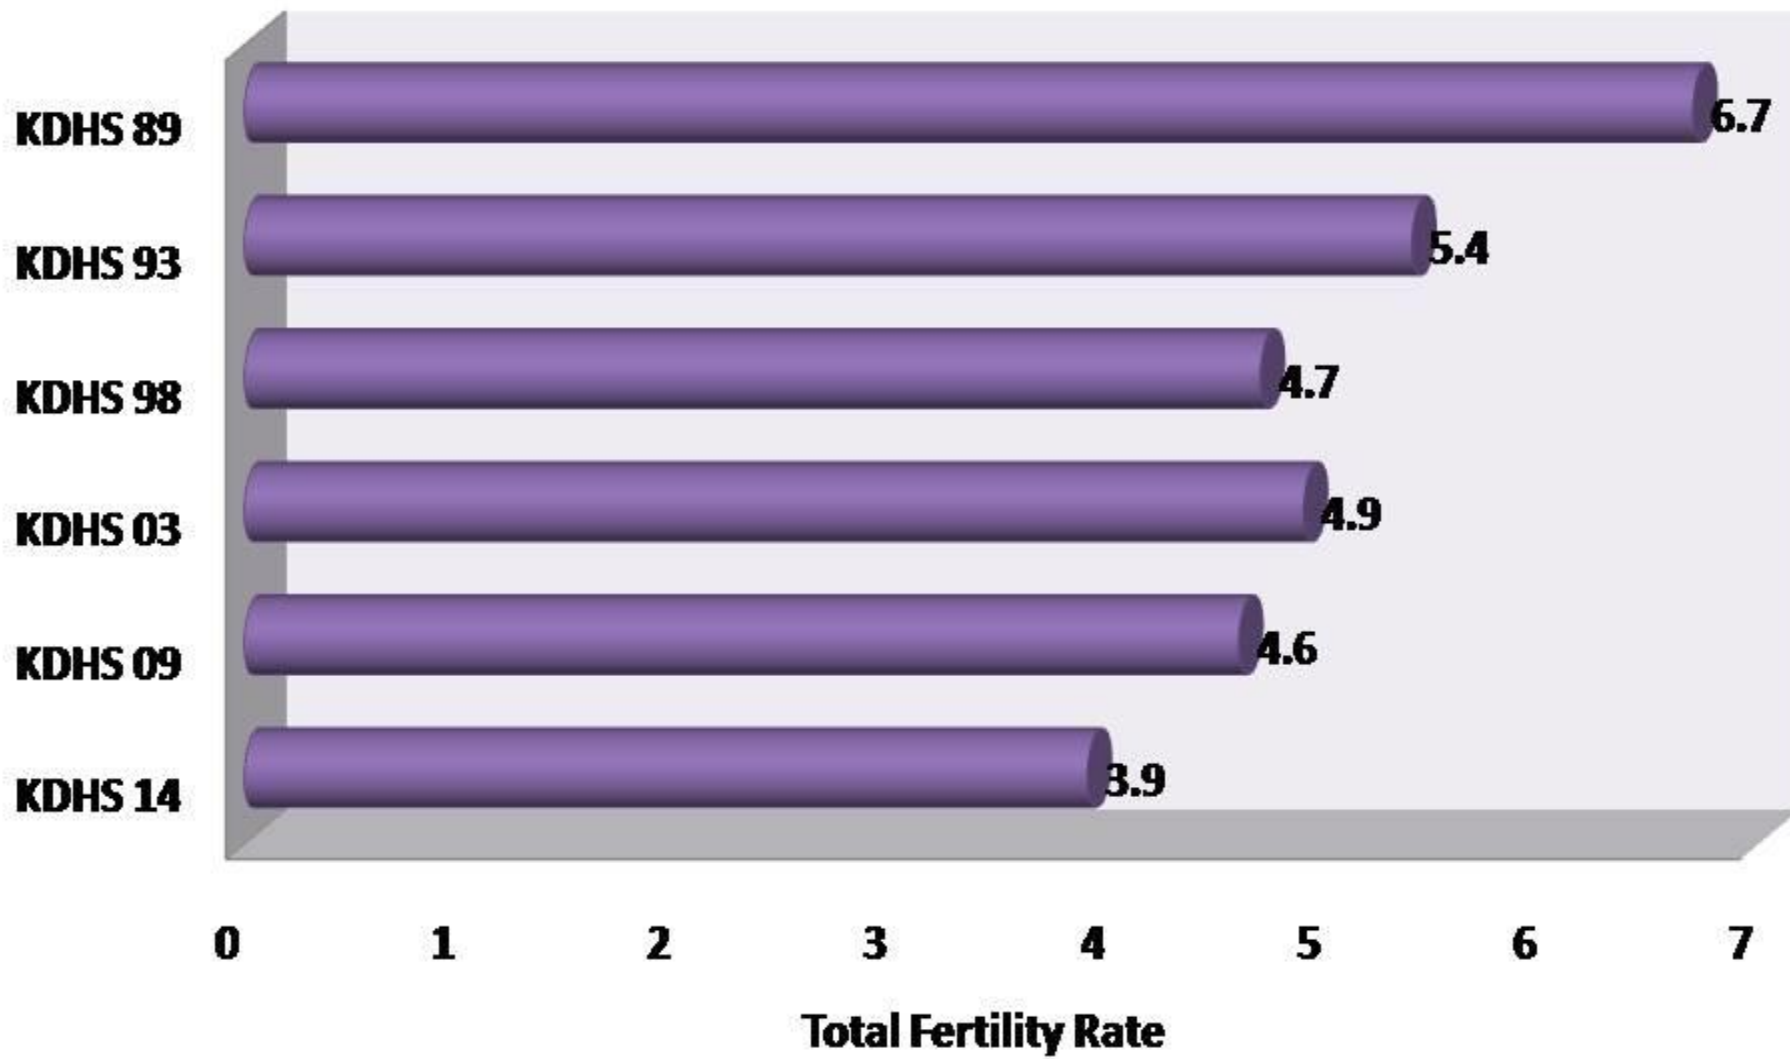

3. Facilitating factors

4. Constraining factors

5. Lessons learned

Key indicators cont.

Fertility Trends in Kenya

Indicators continued,

- **Maternal Mortality Ratio 362 per 100,000 live births from 488 per 100,000**
- **CPR- 2009- 46% to 58% in 2014 - Population Policy Target 54% by 2015.**
- **Unmet need at 18% -2014 KDHS**

Strategic Focus

- 1) Advocacy and Strategic Partnerships**
- 2) Coordination of South to South Learning**
- 3) Institutional Strengthening.**

Strategic Focus 1: Advocacy and Strategic Partnerships

Objective 1: Increase awareness and support for SRHR among key policy and decision makers in the region

Achievements

1.1: Held county advocacy forums on Reproductive Health and FP

1. A number of counties have included a line item on FP in their budgets.

1.2: Held briefing meetings with Members of Parliament to lobby for support for Population issues

2. National Population Policy was ratified by parliament

Strategic Focus 1: Advocacy and Strategic Partnerships

***Objective 1:* Increase awareness and support for SRHR among key policy and decision makers in the region**

Achievements

1.3: Since 2012 a number of policies on RH related issues have been developed .

3. Kenya Health Sector Strategic and Investment Plan (KHSSP) (2013 – 2017)
4. Country Road Map to MDG/SDGs
5. Reproductive Health Commodity Security Strategy (2013 - 2017)
6. National Family Planning Guidelines for Service Providers
7. National Adolescent Sexual and Reproductive Health Policy (2015)

Strategic Focus 1: Advocacy and Strategic Partnerships

Objective 2: To strengthen strategic linkages with like-minded partners to strengthen voices for SRHR advocacy and resource mobilization in the Region

Achievements

2.1: Established, supported and strengthened SRHR networks in Kenya.

2.2 Established and supported strong movements of FP/RH champions at County level.

2.3 Enhanced strong working and collaboration partnership with development partners and donors

1. There is an existing and functional lobby group/individuals on FP/RH among parliamentary, county networks who advocate for support of population and RH issues .
2. **There had been stability in donor funding***
3. Increasing awareness on RH/FP

Strategic Focus 2: Coordination of South- South Learning

Objective 1: Enhance the Capacity of Partner Organizations to offer integrated FP/RH programmers.

Achievements

1.1: Reviewed National guidelines and curriculum on integrated FP/RH programmes in place

1.2 Community System Strengthening support mechanism

1.3 Devolving the health training institutions and establishment of more referral/ county hospitals.

- 1. Implementers have a framework for implementing and reporting RH/FP programs**
- 2. Community health strategy that supports community health service providers in RH/FP delivery**
- 3. Health education and training more readily available across the country**

Strategic Focus 2: Coordination of South- South Learning

Objective 2: Facilitate Strengthening of Health systems (provision of RH supplies and their procurement and distribution)

Achievements

2.1: Devolving of distribution and supply chains of FP/RH commodities

- 1. Strengthening of county procurement and supply chains**
- 2. County Specific procurement planning**

Strategic Focus 3: Institutional Strengthening

Objective 1: To Promote EARHN's sustainability as an effective Network

Achievements

- 1.1 Aligning Country Advocacy priorities to EARHN goals and objectives
- 1.2 Lobbying Governments to allocate resources on RH/FP to support joint programmes
- 1.3 Promotion of the East Africa Community RH/FP through regional policy frameworks

Challenges

- **Inadequate funds for implementation of programmes**
- **Inadequate communication channels**
- **Minimal participation and contribution of EARHN members to the network.**

LESSONS LEARNED

- Having multiple sources of funding is very useful in programme implementation
- Delay in the preparation of AWP's will always lead to delay in implementation of the planned activities
