The civil strife that broke out in the country since December 2013/2014 preoccupied the political class with the search for peace.
Lack of awareness and resources is impeding efforts to disseminate these initiatives
No budget line for family planning.
Low health budget
Opportunities

- Implementation of elements of the peace agreement related to these goals (a great opportunity to re-look at laws, legislation that have been an impediment to achieving the set RH/FP objectives.)*
- Community engagement*
- Revitalization of the economy*
- Goodwill from development and regional partners (for additional resources and capacity development)
